Important to Home Leagues, Agricultural Societies, Mechanics' Associations, and to the Friends of American Industry throughout the

Country. The American Laborer is published on the first day of every month. The first number was published in April last. The whole work is to be completed in twelve nbers. The volume, when completed, will form a com pendium of information connected with the Agriculture, Mechanic Arts, Trades and Commerce of the United States not elsewhere to be found in any volume.

THE AMERICAN LABORER will affirm and maintain the poicy of encouraging and fostering by wise legislation the establishment and growth in our country of new or yet fee ble branches of Industry, such as the Culture of Silk, the Manufacture of whatever fabrics of Wool, Cotton, Iron, &c. may be necessary for the supply of our own wants and to ecure and perfect our Independence. It will demonstrate that the true and permanent interests of all, but especially of the Agricultural and Working Classes universally, will be infallibly and signally promoted by adopting and carrymy out the Protective Policy, and that the Wages of Labor, the average price of its Produce, and the aggregate Product of the National Industry, will be surely and largely en hanced thereby. In short, this work is intended to form a complete text-book for the friends of Protection, and a thoough refutation at every point, of the pernicious fallacie put forth by the foreign and misguided American apologist or the policy of one-sided Free-Trade.

THE AMERICAN LABORER will be published montl ly in large octave form, each number containing thirty-two large double-column pages of closely printed matter. Erchnum ber will contain one great Speech, Report, or oil er contin-cing document, and a variety of shorter articles. The work will form one complete and comprehensive velume of 524 large and fair pages, and will be afforded to single subscribers for seventy-five cents each, three copies for Two Dollars, five copies, for Three Dollars, nine copies for Five Dollars, or TT TWENTY COPIES FOR TEN DOL-LARS. _ Payment is required in advance, in all cases .-The lowest possible price has been fixed in order that its circulation may be rendered universal, should the work receive the approbation of the public.

Tr The July number is now ready for delivery. The April, May and June numbers may still be procured. Post-Masters are authorised to remit money for subscrip GREELEY & McELRATH, ions. No. 30 Annst New-York.

POST OFFICE, NEW-YORK.—The Postmaster General being desirous that all City Letters, commonly known by the name of Penny Letters, should have the advantage of the most rapid delivery, has ordered that a UNITED STATES CITY DISPATCH POST should be established with three deliveries each day. With a view, therefore, to put the same into immediate operation the Postmaster has made an arrangement with Mr. ALEXANDER M. GREIG, the Proprietor of the City Despatch Post, by which he discontinues the of the City Despatch Post, by which he discontinues the same and surrenders the property, boxes, and arrangements now in use by him to the Post Office Department. The Postmaster has secured the services of Mr. Greig, in connecion with Mr. WILLIAM SEYMOUR, who will superinteed this tion with Mr. WILLIAM SEYMOUR, who will superintend this Department. An additional number of sworn carriers have been employed to carry the City Letters wholly independent of Letters received by the Mails. Notice is therefore bareby given that all Letters placed in the Boxes at the various Stations, together with all City Letters deposited either in the Post Office, or in the Branch Post Office will be under the charge of the Department, and will be received for rapid delivery at the hours mentioned below.

Letters addressed to parties renting Boxes at the Upper and Lower Post Offices, will be deposited in them as heretolore, unless a request is made that they be sent by the City Despatch Post.

STATIONS.

STATIONS. Letter Boxes are placed at one hundred Stations in various parts of the City, and all letters deposited therein, will be punctually delivered three times a day (Sundays excepter) at three cents each; option being given, either to free the Letter in the manner shown in the fellowing regulations, or leave the postage to be collected of the party to whom the Letter is addressed. the Letter is addressed:

POST-PAID LETTERS. Letters which the writers desire to send free, must have a ree stamp affixed to them. An ornamental stamp has been prepared for that purpose, and may be procured at either of the Post Offices and a lathe Stations. The charge will be So cents per dozen, or \$2.50 per hundred; the reduction of price for the larger quantity being made with a view to the accommodation of those parties sending a considerable num-

ber of circulars, accounts, &c.
All Letters intended to be sent forward to the General Post office for the Island Mails, must have a Free Stamp

a fixed to them.

UNPAID LETTERS.

Letters not having a Free Stamp, will be charged three cents, payable by the party to whom they are addressed, on delivery.

Letters and Newspapers addressed to Editors of the public Press, will be dehvered free

REGISTRY.

No Money must be put into the Boxes, unless registered at the Upper Post Office, where a Registry will be kept for Letters, which parties may wish to place under special charge. Free Stamps must be affixed to such Letters for the charge. Free Stamps must be ainxed to such Letters for the ordinary postage, and an additional Free Stamp must be affixed for the registration: but all such Letters must be especially deposited at the principal Office.

Doctor Thempson, Again.-To the Editors of the Tribune—Sirs—The account published in The Times a week ago to-day, in relation to my wife being relieved at 342 Broome street, by Dr. Thompson, of a distressing cough and raising blood, is correct, and she still continues better, for which I feel thankful. I have seen this day a more astonishing result from the Doctor's prac-tice; it was a gentleman from New Orleans, who informed me he had been under Dr. Thompson's carrethree days for an obstinate cough of two years' standing, and that he declares himself better than he had been before in eighteen months,

and his joy and satisfaction appeared to be unbounded.—
Call at the Doctor's office, and you will find plenty of witnesses there and in the neighborhood.

MORDECAI WILLSON of Flatbush.

The reference which Mr. Willson has made above in relation to me is correct. I saw the account of Mrs. Willson in The Tribune, which was the cause of my calling upon Doctor Thompson. No sum of money would be any temptation (were it to be possible) for me to be placed back to the

state I was in three days since.

SANDS'S SARSAPARILLA—For the REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD, OR HABIT OF SYSTEM, NAMELY:—RHEUMATISM, SCIATICA, OF LUMBAGO, SCROPFULA, OR KING'S EVIL, OBSTINATE CUTANEOUS ERUPTIONS, PIMPLES, OR PUSTULES ON THE FACE, BILES, RESTORMES CONTAINS SORP FURS DEPARTMENT OF TETTERS, BLOTCHES, CERONIC SORE EYES, RINGWORM OF TETTER, SCALD HEAD, ENLARGEMENT AND PAIN OF BONES AND JOINTS, STUBBORN ULCERS, SYPHILITIC SYMPTOMS, AND DISEASES ARISING FROM AN INJUDICIOUS USE OF MERCURY, ASCITES, OR DROPSY, EXPOSURE OR IMPRUDENCE IN LIFE.— ALSO, CHRONIC CONSTITUTIONAL DISORDERS WILL BE RE GOVED BY THIS PREPARATION. Its timely administration MOVED BY THIS PREPARATION. Its timely administration has been attended with the happiest results in many anomalous affections; but it is chiefly intended to fill the void which exists between cathartic and aperient medicines, hence its modus operand; is that of all alterative directly: indirectly, proving a lasting tonic to the system. Diseases of the osseous and glandular system, also of the joints and ligaments, are safely and certainly curred by its use, as the peculiarity of its operation consists in removing the germ or cause of disease, and the health of the patient is speedily restored.

Sarsaparilla has enjoyed a high reputation in the treat ment and cure of diseases for many years, but the value of no other article in the Materia Medica, that at one time held to high a rank, has at others been placed so low: the caus so high a rank, has at others been placed so low: the cause of which is chiefly owing to the great variation in the manner of its preparation, and want of care in selecting the
proper article. A distinguished medical writer who resided
many years in the section of country which produces the
best quality of Sarsapatilla truly observes, "of six or eight
species of the root which I found grawing in the woods, I
never found but one to manifest to the taste any of the sensible properties of the genuine medical Sarsaparilla, the rest
being insipid and nearly inert." As the medical profession
do not act as their own Pharmaceutists, but rely on the skill
of the A pothecary for preparing and compounding different of the Apothecary for preparing and compounding different formulæ, it is a matter of the utmost importance that there formulæ, it is a matter of the utmost importance that there sheuld be a correct standard preparation of Sarsaparilla, on which the 'Faculty' and public generally can rely with implicit confidence; such is the article now offered. It combines the Utile cum Dulce, and in many instances has given speedy relief and made a perfect cure when the patient was apparently fast verging to the grave. The proprietors have devoted many years in experimenting and testing various modes of preparation to enable them to concentrate in the in the most efficient form all the medicinal value of the root, and this most desirable result has been at last triumphantly accomplished by means of an entirely new, ingenious and costly apparatus. The Sarsaparilla is combined with other articles selected wholly from the vegetable kingdom, all of which are the most powerful purifiers of the blood; and these are concentrated into a fluid extract of great power. The patient therefore who uses this preparation has all com-

these are concentrated into a fluid extract of great power. The patient therefore who uses this preparation has all combined that can be useful for the removal of his complaint. The numerous objections to different forms in which Sar saparilla has been heretofore prescribed, are well founded: the quantity of sugar contained in the syrup, will in most instances nauseate and surfeit the stomach, if a sufficient dose be taken to be of any benefit—the decoction and infusion being so liable to spoil, combined with the difficulty of preparation, render them both comparatively useless and inert; hence the superior value and efficacy of the article now under cons deration-

inder cons deration-In addition to the other advantages of this preparation, it will be found exceedingly palatable, so that even to a child it may be tradily administered, and to the most delicate per-son it may be given, without offending or disagreeing with the stomach. As the addition of mineral poisons is frequently objected

te, this preparation is guaranteed entirely free from anything of that nature, leaving it to the judgment of the physician or patient to make such additions, and in such cuantities as the case may require. Sands's Sarsaparhla is adapted the case may require. CONSUMPTION.—Dr. ALLEN'S Balcoughs, Coids, Consumption and Liver Complaint.
Coughs, Coids, Consumption and Liver Complaint.
Consumption is a disease often secretly larking in the system for years before there is the least complaint of the lungs. And in this stage it can be cured as effectually and as certainly as any other disease. Let no persons delay the use of medicine until their lungs are sensibly affected, but in due season resort to Dr. Allen's Balsam of Liverwort. This medicine has proved even the "Conqueror of Physicians," for which all mankind will have abundant cause to bless the hand of Providence. More than 100 physicians in this city now use this medicine in their practice.

LIVER COMPLAINT CURED.—Dr. Allen—Dear Sir: I have used your Balsam of Horehound, Liverwort and Pleurisy Root in my practice for some months past, and from the wonderful effect it has had, I am fully satisfied that it possesses very superior virtues in the case of liver complaint

OTICE to RUPTURED PERSONS.

-Dr. A. G. HULL, No. 4 Vesey street, Astor House, New-York.—Persons afflicted with Ruptures may rely upon the best instrumental aid the world affords, on application at his office, 4 Vesey street, New York, or either of his numerous agents in the chief towns of the United States. Parents must be careful to examine the back part of Dr. Hull's Trusses, to see if they are endorsed by Dr. Hull in writing. None other are genuine or to be relied on as good. Dr. Hull guarantees cures to all otherwise healthy patients who call at his office for treatment. If the cure be not radical and permanent, so as to preclude the necessity of wearcal and permanent, so as to preclude the necessity of wear-ing any truss whatever, the money advanced is returned on the expiration of the term specified for the cure, whatever progress the rupture may have made toward eradication.
Children under twelve years universally cured without further expense than the cost of the Truss. The radical cure has been under progressive practical improvement for more than twenty years past, in Dr. Hull's Truss Office, and is now brought to a state of unrivaled perfection.

Many treacherous agents have undertaken to vend imitations of Dr. Hull's celebrated Hinge and Pivot Truss for the

easy and safe retention of Ruptures. The imitations cannot be relied on—they are made by unskilful surgeons and mechanics, and are no better than the ordinary Trusses of the market. The genuine have my full name in writing.

AMOS G. HULL& CO.

Dr. Hull has at the request of segral respectable physicians, fitted up a room exclusively for Ladies, having separate entrance from the business department, wherein a lady is in constant attendance, to apply Trusses and Supporters to female ratients.

THE TRUSSES and SUPPORTERS of Dr. Hull's invention continue to receive my decided preference. For twenty years past I have employed the Trusses of Dr. Hull with success. The supporter was invented in 1831 by the Dr., with my advice and approbation; and I am happy to say that it is extensively adopted in Europe as well as in this country.

I was worn away to a mere skeleton; with the greatest difficulty only could I get up and down stairs; my appetite was gone, and my strength had so far failed me that my frieads were persuaded I could not survive many weeks, unless I obtain relief. Indeed, sir, my situation was so miserable to myself and so distressing to my family, that I felt wilking to die whenever it should please the Master to take me home. But I heard of your medicine, and relief came. Ves. it But I heard of your medicine, and rehef came. Yes, it proved the 'Balm of Gilead' to my poor, afflicted body.— Before I had taked one bottle I experienced a mitigation of all my symptoms, and, to my great joy, I found in the continued use of it the happlest relief. In short, sir, it has made a perfect cure of me, and I can truly say I have no desire to be better.

Now, I consider it is a duty I owe you, and, through you.
